It's been said that church is not a club for saints but a hospital for saved sinners. Today especially, with issues such as alcoholism, divorce, sexual abuse, homosexuality, domestic violence, and drug addiction as near to us as the next pew—or our own—a typical Sunday school class or Bible study alone just won't cut it when it comes to helping wounded people discover the healing and liberty Christ offers them. Celebrate Recovery fills a long-standing need in the church in its role as Christ's healing agent. Developed by Rick Warren and John Baker of the celebrated Saddleback Church, this program has already proved itself. In just six years, its remarkable, life-changing effectiveness has gained it an explosive, grass-roots popularity. Now Zondervan teams with the program's Saddleback authors to bring churches everywhere the first-ever 12-step recovery curriculum that's distinctively Christian, uncompromisingly biblical, and designed especially for churches. Everything is here: a 45-minute vision-casting video, leader's and participant's guides, audio tapes, software diskettes, and sermon transcripts—all in a tested, groundbreaking program, painstakingly and prayerfully developed to help needy, often desperate people discover new dignity, strength, joy, and growth in the image of Christ. Celebrate Recovery does more than help people resolve painful problems—it does so in the context of the church as a whole. Rather than setting up an isolated recovery community, this program helps both participants and their churches to come together and discover new levels of care, acceptance, trust, and grace.

Designed to accommodate churches large or small, this fellowship-based, 52-week curriculum truly is a celebration of Christ in the life of a church and its members. Whether job-hunters are jumping into the job pool for the very first time, or back in the water after a dry spell, Neely and her crack team of expert contributors have the information needed to stay afloat. How do we frame decisions to use or abstain from military force? Who should do the killing? Do we need new paradigms to guide the use of force? And what does “victory” mean in contemporary conflict? In many ways, these are timeless questions. But they should be revisited in light of changing circumstances in the twenty-first century. The post–COLD war, post-9/11 world is one of contested and fragmented sovereignty: contested because the norm of territorial integrity has shed some of its absolute nature, fragmented because some states do not control all of their territory and cannot defeat violent groups operating within their borders. Humanitarian intervention, preventive war, and just war are all framing mechanisms aimed at convincing domestic and international audiences to go to war—or not, as well as to decide who is justified in legally and ethically killing. The international group of scholars assembled in this book critically examine these frameworks to ask if they are flawed, and if so, how they can be improved. Finally, the volume contemplates what all the killing and dying is for if victory ultimately proves elusive.

Breakthrough French 3 is part of the highly acclaimed Breakthrough Language Series and an extensively revised new edition of the best-selling Breakthrough Further French. It is designed for learners of French with a reasonable knowledge of the language (perhaps for two to three years of study whether in classes or less formally). It aims to extend the learner's vocabulary over a wide range of topics and to improve conversational and reading skills. Authentic recordings and radio excerpts teach the language as it is spoken by the French. These are backed up by carefully paced studio recordings and exercises. Many illustrations complement the user-friendly page layout. Ideal for self-study Breakthrough is also used widely in further, adult and higher education.

This Handbook maps the contours of an exciting and burgeoning interdisciplinary field concerned with the role of language and languages in situations of conflict. It explores conceptual approaches, sources of information that mediate language encounters. It examines case studies of the role that languages have played in specific conflicts, from colonial times through to the Middle East and Africa today. The contributors provide vibrant evidence to challenge the monolingual assumptions that have affected traditional views of war and conflict. They show that languages are woven into every aspect of the making of war and peace, and demonstrate how language shapes public policy and military strategy, setting frameworks and expectations. The Handbook's 22 chapters powerfully illustrate how the encounter between languages is integral to almost all conflicts, to every phase of military operations and to the lived experiences of those on the ground, who meet, work and fight with speakers of other languages. This comprehensive work will appeal to scholars from across the disciplines of linguistics, translation studies, history, and international relations; and provide fresh insights for a broad range of practitioners interested in understanding the role and implications of foreign languages in war. Many schools have failed to create a nurturing educational environment for LGBTQ students. Our Children are Your Students features a discussion about the various tactics that LGBTQ families use to work with schools that don't anticipate the arrival of their families and children. The book features a verbatim theater script called Out at School, which is based on interviews conducted with 37 LGBTQ families about their experiences in school. The families live in four different cities in the province of Ontario as well as in the suburbs and rural communities surrounding them. Written by Tara Goldstein, Jenny Salisbury, and Pam Baer, the play contains 22 scenes of verbatim monologues and dialogues. A set of images created by visual artist benjamin lee hicks accompanies each scene. The play also contains three original songs composed by musician Kate Reid, who draws on a number of the themes embedded in the scenes. Links to performances of the songs and to the artwork can be seen on the LGBTQ Families Speak Out project website: www.lgbtfamiliespeakout.ca. From ground-breaking scientific inventions to pleas for the environment, anti-war speeches to incredible testimony of lived experiences, the speeches collected here demonstrate the profound wisdom of youth and why it is important to speak up and out on what concerns us. 'A society that cuts itself off from its youth severs its own life line; it is condemned to bleed to death.' - Kofi Annan

Timothy Findley (1930-2002) is one of the most important contemporary Canadian writers. His novels have been classified as postmodern, exhibiting characteristic features such as parody, historicographic metafiction, and hybrid genres. This classification of Findley as a postmodern writer, however, largely neglects the fact that Findley is deeply committed to the exploration of certain ethical and political themes. Recurring topics in his work are, for instance, fascism, environmental concerns, and the problem of responsibility. Sparked off by the fascinating question of how postmodernity and ethics can be reconciled at all, and inspired by the so-called ethical turn in the literary theory of the 1990s, this study supplies a closer look at Findley's ethics with regard to its postmodern potential. A detailed analysis of five of his novels (The Wars, Famous Last Words, Not Wanted on the Voyage, The Telling of Lies and Headhunter) explores the ethical dimension of Findleys work and its consequences for his categorization as a postmodern writer.

Flipping John Howard Griffin's classic Black Like Me, and extending Noel Ignatiev's How The Irish Became White into the present-day, Wise explores the meanings and consequences of whiteness, and discusses the ways in which racial privilege can harm not just people of color, but also whites. Using stories instead of stale statistics, Wise weaves a narrative that is at once

The transition from President Donald J. Trump to President Joseph R. Biden Jr. stands as one of the most dangerous periods in American history. But as #1 internationally bestselling author Bob Woodward and acclaimed reporter Robert Costa reveal for the first time, it was far more than just a domestic political crisis. Woodward and Costa interviewed more than 200 people at the center of the turmoil, resulting in more than 6,000 pages of transcripts—and a spellbinding and definitive portrait of a nation on the brink. This classic study of Washington takes readers deep inside the Trump White House, the Biden White House, the 2020 campaign, and the Pentagon and Congress, with vivid, eyewitness accounts of what really happened. Peril is supplemented throughout with never-before-seen material from secret orders, transcripts of confidential calls, diaries, emails, meeting notes and other personal and government records, making for an unparalleled history. It is also the first inside look at Biden's presidency as he faces the challenges of a lifetime: the continuing deadly pandemic and millions of Americans facing soul-crushing economic pain, all the while navigating a bitter and disabling partisan divide, a world rife with threats, and the hovering, dark shadow of the former president. "We have much to do in this winter of peril," Biden declared at his inauguration, an event marked by a nerve-wracking security alert and the threat of domestic terrorism. Peril is the extraordinary story of the end of one presidency and the beginning of another, and represents the culmination of Bob Woodward's news-making trilogy on the Trump presidency, along with Fear and Rage. And it is the beginning of a collaboration with fellow Washington Post reporter Robert Costa that will remind readers of Woodward's coverage, with Carl Bernstein, of President Richard M. Nixon's final days.
